

February 20, 2004

Dear Party City Trading Partner,

Thank you for your participation in Party City's EDI initiative. Your cooperation and support will help to achieve greater supply chain efficiencies for both you and Party City. Party City has partnered with Internet Commerce Corporation (ICC) to handle the transaction testing for the following documents: 850, 856, 810, and 860. The documents will be implemented in stages. You will be provided specifications and contacted when documents are available for testing.

The base fees are for testing any document and covers 3 attempts per document or 15 business days. Document testing exceeding 15 days or 3 attempts will be subject to additional fees as described below. After your testing confirmation is received a confirmation will be provided which will outline your testing window.

Prior to testing please insure that your EDI Systems and maps are completed and have been tested internally. In addition please make sure that any interconnects necessary between your VAN and the GXS network have been set up or your AS2 connection to ICC is operational. ICC is offering an inexpensive AS2 software license that has been specially priced for Party City. If you would like a quote for an AS2 license, please contact me at the telephone number listed below or my e-mail address.

Please use the Party City EDI address info listed below for testing. After testing is approved you will receive a confirmation advising you to switch to the production ID.

VAN: GXS
Party City Sender Receiver ID Qualifier: ZZ
Party City Sender Receiver ID: PARTYCITYTST

Your cost for testing is listed below and will be billed to you by ICC. You will not receive an invoice from Party City for these services.

Base Vendor Trading Partner Charges Per EDI Transaction Set (810, 850, 856, 860). 997's are included at no charge.

<u>3 attempts / 15 business days</u>	<u>Additional 3 attempts</u>	<u>Additional 15 days</u>
\$295	\$150	\$150

This signed letter must be returned to ICC in order for testing to begin. Please fax the letter to me at 212-614-9976. Upon receipt, and ICC Testing Representative will contact you to schedule testing.
