

Electronically exchange essential business documents – directly from your desktop

Simple, reliable, compliant – EDI made easy

PASS™ EDI Pay provides you with a tool to better manage purchase orders, invoices and payment remittances from your desktop.

Features

- Support for over 400 retailers' EDI requirements
- Manage purchase orders, invoices and payment remittances
- View pending and paid invoices
- Integrates with PASS Cash Management Center

Benefits

- Meet your retailers' requirements
- Sell prospects on the fact that you are EDI capable
- No additional staff needed
- Remain focused on core competencies to operate your business

Receive Purchase Orders and Payment Remittances

Your trading partner's electronic formatted purchase order and payment remittance are routed directly to your desktop.

Create Invoices

When you are ready to send your trading partner an electronic invoice, you create the invoice directly from the purchase order stored in the desktop.

Manage Documents

View, search, print and export the documents saved in your desktop.

Send Ship Notice and UCC-128 Label Requests

Simply exporting the purchase order from the desktop to an Excel spreadsheet provides the foundation for creating UCC-128 labels and ship notices.

By utilizing PASS EDI Pay, you easily and cost-effectively participate in your trading partner's extended supply chain – responding to new mandates, achieving compliance objectives, and preventing costly problems.

Your PASS EDI Pay Partner

Internet Commerce Corporation (ICC) is the trusted provider of e-commerce solutions to connect businesses, regardless of their size and level of technical sophistication, with their trading communities. Thousands of customers, ranging from sole proprietorships to large corporations, rely on the value delivered from ICC's EDI solutions, in-depth expertise, and unmatched customer service to help meet the unique requirements for trading partner compliance.

About PASS (Payments as a Secure Service™)

PASS allows businesses to confidently and securely perform a wide variety of financial management activities straight from the desktop. PASS is offered through a group of leading financial institutions and payment industry leaders, and is a unique offering for Windows Vista™ Business operating system users.
